**SUPPLEMENTAL**  
**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeff Costellia on 4/6/2007.

The application has been amended as follows:

**To the Claims, page 10**

In Claim 60, line 1, after "manufacturing a semiconductor" replace "element" with -- device--.

***Allowable Subject Matter***

Claims 1-36, 57-62, 64-68 and 70-75 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for allowing the claims is the inclusion of the limitation "etching a portion of the etched conductive film" which all of the claims rely upon and is not found in the prior art of record. This limitation requires two separate and distinct etching steps to be performed on the conductive film to form source and drain electrodes which are in contact with the source and drain regions. See Applicant's Response and Statement of the Substance of the Interview filed 12/7/2007.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
